Professional Summary:

Senior mobile engineer with 7+ years of experience. iOS is my home: Swift, SwiftUI and Objective-C. I also ship React Native and Flutter apps for iOS and Android, and I build the APIs and backend behind them. I've built apps for e& (Etisalat), Vodafone iPay, Pura by PureHealth and the UAE Ministry of Justice. Looking for a full-time remote role, any time zone. Key strengths:

- Led the iOS app for Vodafone iPay, a digital wallet in Qatar (Request to Pay, P2P, bills, KYC).
- Picture in Picture and multi login on Driver's Mate helped grow net income by 30%.
- Raised test coverage from 10% to 85%, cutting production bugs by about 40%.
- Full stack: leading the build of ApnaPay, a mobile wallet (Flutter, Supabase APIs, Next.js panel).

Work Experience:

1 React Native Developer at
Ministry of Justice, UAE
Aug 2026 to Present

2 iOS and AI Engineer at
PureCS (PureHealth)
Sep 2025 to Jul 2026

3 Consultant, Mobile Dev at
Systems Limited
Jun 2024 to Aug 2025

4 iOS Developer at
DG Group (Driver's Mate)
May 2022 to Jun 2024

5 iOS Developer at
Leapture LLC, US
Apr 2020 to May 2022

6 iOS Developer at
NoaBio LLC, Qatar
Aug 2019 to Mar 2020

1. React Native Developer (iOS and Android), Ministry of Justice, UAE
August 2026 to Present

- Build and maintain the ministry's mobile app for iOS and Android in React Native and TypeScript.
- Connect the app to government APIs and secure sign in.
- Own the native iOS side: builds, signing, push notifications and App Store releases.
- Full Arabic and English support, with right to left layouts.

2. iOS and AI Engineer, PureCS (Pura by PureHealth)
September 2025 to July 2026

- Built iOS features in Swift and SwiftUI for Pura, a personal health coach app.
- Worked on AI features in the app, like the Ask Pura AI health chat, using LLM APIs.
- Connected the app to AI and backend services through REST APIs.

3. Consultant, Mobile Development, Systems Limited
June 2024 to August 2025

Lead iOS Developer for Vodafone iPay, Qatar

- Led the iOS app for the wallet: planning, code reviews and releases.
- Built the full Request to Pay feature, alias P2P transfers, and dynamic and universal links for Request Money.
- Built wallet top ups, P2P transfers and bill payments with safe transaction flows, and added third party KYC SDKs.

iOS Developer for e& (Etisalat UAE)

- Built new features in Swift for the etisalat UAE app, used by millions of people.
- Worked in a clean architecture codebase, connected new APIs and fixed bugs across the app.

4. iOS Developer, DG Group (Driver's Mate)
May 2022 to June 2024

- Built features for Driver's Mate, a UK taxi app for drivers: Jobs, CarPlay, Documents and the Sin Bin timer.
- Added multi login and Picture in Picture, which helped grow net income by 30%.
- Raised test coverage from 10% to 85% (XCTest, UI and snapshot tests), cutting production bugs by about 40%.
- Used WebSockets for live job updates and shipped to the App Store every two weeks.

5. iOS Developer, Leapture LLC, US (Remote)
April 2020 to May 2022
- Designed a configurable, modular architecture that cut development time and cost by 3x.
- Built social features (stories, feeds, messaging) and integrated Stripe and PayPal payments.

6. iOS Developer, NoaBio LLC, Qatar
August 2019 to March 2020
- Built uSteth, an AI-assisted digital stethoscope app, with audio capture, sound processing and data charts.

Current Projects:

ApnaPay (Al Makkah Telecom, Pakistan), Full Stack Mobile Engineer, Contract
September 2026 to Present
- Lead the full build of a new mobile wallet: the Flutter app for iOS and Android, the APIs and database on Supabase (Postgres, edge functions), and the staff admin panel in Next.js.
- CNIC and selfie KYC, face scan for big payments, fingerprint login, SMS OTP, PayFast add cash, and full Urdu support.

soStudy (Germany), Mobile Engineer, Contract
August 2026 to Present
- Building the iOS app in Swift and SwiftUI for iOS 26 (Liquid Glass), with modular Swift packages, and the Android app in Flutter.
- OAuth sign in, English and German support, and an AI-assisted workflow to plan, build and test faster.

Skill Set:

1. Expert in native iOS: **Swift**, **SwiftUI**, **Objective-C**, **UIKit**, **Combine**, **async/await**, **Core Data**, **CarPlay** and **Picture in Picture**.

2. Cross platform: **React Native** (TypeScript) and **Flutter** (Dart), shipping to both the App Store and Play Store.

3. Backend and APIs: **REST**, **WebSockets**, **Supabase** (Postgres, edge functions), **Firebase**, **AWS** and **Next.js** admin panels.

4. Architecture: **MVVM-C**, **Clean Architecture**, **modular code** (Swift packages) and **dependency injection**.

5. Fintech: **digital wallets**, **P2P transfers**, **bill payments**, **Stripe**, **PayPal**, **PayFast**, **KYC** and biometric checks.

6. AI: **LLM features** inside apps, and AI tools that help teams ship faster.

7. Testing: **XCTest**, **unit tests**, **UI and snapshot tests** and **TDD**. Raised coverage from 10% to 85%.

8. Tools and CI/CD: **Xcode**, **Instruments**, **Git**, **JIRA**, **Azure DevOps**, **Fastlane**, **TestFlight** and store releases.

9. Localization: **Arabic**, **Urdu** and **German**, with right to left layouts.

10. Leading and teamwork: code reviews, mentoring, and remote work across time zones.

Education:

1 Bachelors in Computer Science
FAST-NUCES (2017 to 2021)

2 Certification in Data Science
Dice Analytics

3 Certification in Graphic Design
National College of Arts (NCA)

Certifications:

iOS Development by Meta
Master Swift Language
UI/UX by Meta
Python for Data Science
Graphic Designing by ACM

Interests And Hobbies:

Reading books (I love them)
Animation and digital art
Making UI/UX for mobile apps
Making small websites
